

Deep Well Reservoir (#34002)

1. Description

SPL Deep Well Reservoir can hold large volume solutions and is easy to handle.

Deep Well Reservoir is a 2well reservoir made of high quality polypropylene (PP), that can store a total of 300 ml (150 ml/well) in one product. The scales are molded at 50 ml intervals. Applicable to automation equipment, the advantages of holding large volumes of solutions can increase automatic processing time.

2. Features

- ❖ Large volume of solution can be contained and layered (stacking)
- ❖ Design for all types of multi-pipettes
- ❖ Applicable to automation equipment

3. Product Range

Cat. No.	Material	Configuration	External Dimension w x l x h (mm)	Bottom Type	Total Volume (ml)	Sterile	Packaging
34002	PP	2well	127.60 x 85.40 x 40.00	Flat	150	+	5 / 25

4. Certification

SPL Life Sciences hereby certifies that the product identified above, inspected to be in compliance with product quality specification and requirements as documented in our ISO 9001:2008 Quality Management System (K-QA-Q031478) in Korea.
