

Autoclave Indicator Tape (# 96010)

1. Description

Autoclave Indicator Tape is designed for use with standard autoclaves, allowing easy visual confirmation of whether an item has undergone a steam sterilization cycle. The tape is light yellow, and the pressure-sensitive adhesive provides easy application, strong adherence, and clean removal from the autoclaved object—even under high-temperature and high-pressure conditions.

2. Features

- ❖ Color-change indicator stripe turns dark brown or black after 15 minutes of exposure to 121°C/250°F
- ❖ Dimension: 19mm × 55m

4. Product Range

Cat.No.	Materials	Size (W * L)	Sterile	Packaging
96010	Crepe paper	19mm * 55m	-	1 / 20

5. Certification

SPL Life Sciences hereby certifies that the product identified above, inspected to be in compliance with product quality specification and requirements as documented in our ISO 9001:2015 Quality Management System (K-QA-Q031478) in Korea.
