

Disposable Spatula

1. Description

Made of clean polystyrene material, the lightweight Spatula has a special design unique to SPL. The general-shaped head is suitable for handling various samples, and the pointed tail is suitable for putting small amounts of samples into narrow openings such as 1.5 ml Microcentrifuge Tubes.

The antistatic specification leaves less sample on the product surface, and since it is disposable, it minimizes cross-contamination of samples.

2. Product Range

Cat. No.	Materials	Length (mm)	Head Type	Sterile	Packaging
99020	PS(Antistatic)	175.00	Wide	-	50 / 100

3. Certification

SPL Life Sciences hereby certifies that the product identified above, inspected to be in compliance with product quality specification and requirements as documented in our ISO 9001:2015 Quality Management System (K-QA-Q031478) in Korea.
