SPLAmber™ Storage Box

(#84100)

1. Description

SPLAmber™ Storage Boxes are designed to hold microtubes and vials with light-sensitive samples in wide temperature ranges. Materials of SPLAmber™ significantly decrease light transmission over the visible wavelength spectrum compared to clear polypropylene.

2. Features

- Temperature range: -70 ~ +140℃
- Hinged lid type
- Autoclavable

3. Product Range

Cat.No.	Material	Description	Packaging
84100	PP	10 x 10 (100 Holes)	6

4. Certification

SPL Life Sciences hereby certifies that the product identified above, inspected to be in compliance with product quality specification and requirements as documented in our ISO 9001:2015 Quality Management System (K-QA-Q031478) in Korea.
